

RF Based Projects-2018-19

Sr.No	Project ID	Project Title
1	RF_01	Rf based industrial automation system
2	RF_02	Safe switching of high voltage devices using rf remote system
3	RF_03	Wireless data encryption and decryption for security in army applications
4	RF_04	Wireless data logger using rf communication
5	RF_05	Wireless electronic notice board using rf
6	RF_06	Advanced embedded remote control robot navigation system using rf
7	RF_07	Automatic station indication system for railways using lcd/apr9600
8	RF_08	Wireless industrial security systems for factories
9	RF_09	Pc based railway gate control using r.f. Communication
10	RF_10	Wireless temperature monitoring system using r.f communication
11	RF_11	Rf based security system for banking applications.
12	RF_12	Rf based patient monitoring system
13	RF_13	Wireless fire alarm & monitor on lcd
14	RF_14	Wireless digital code lock with status display
15	RF_15	Speed control of single phase induction motor using rf
16	RF_16	Rf controled robot with navigation
17	RF_17	Home apparatus controled through rf
18	RF_18	Wireless intrusion detection, electronic security and control using central monitoring system
19	RF_19	Modern bus station using rf (voice announcement)
20	RF_20	Dc motor speed and direction control using rf
21	RF_21	Dc motor speed and direction control using rf with pc
22	RF_22	Ac motor speed and direction control using rf
23	RF_23	Ac motor speed and direction control using rf with pc
24	RF_24	Wireless stepper motor control using rf
25	RF_25	Wireless stepper motor control using rf with pc
